Brand

WE DON'T JUST DESIGN BAGS

We design Confidence. Protection. Freedom.

Protection, freedom, and the confidence to move. At XD Design, every product begins with a problem that demands a solution—and ends with a design you can trust. Our original Bobby backpack did more than just reimagine the everyday carry; it ignited a global movement for smarter, safer travel. Today, millions around the world rely on XD Design for innovation that performs, looks refined, and makes a tangible difference. In a world saturated with 'things,' we choose to design what matters.

Innovation

Shape-Shift Zipper System

A unique Shape-Shift Zipper expands your bag and reshapes its form.

Lockable Metal Zipper Pull

Patented metal zipper pull with locking mechanism, secures your belongings in transit.

Zero-Shaped Airflow Back Panel

Zero-form channel improves airflow and long-wear comfort.

Hidden RFID-Safe Pocket

Hidden in the back panel for secure, RFID-protected storage.

Pop-out Sports Bag

Unfolds from Plus Pocket to reveal extra 50% storage, ideal for sports gear or everyday overflow.

Hidden Privacy Pocket

A hidden privacy pocket in the back panel keeps sensitive items out of sight.

Sustainability

Sustainability is embedded in our DNA at XD Design. We believe sustainability starts with smart choices.

Made to Last

We design for durability — every product is using high-quality materials and sustainable processes that stand the test of time. All our products are manufactured in facilities with valid social audits under the BSCI framework and Code of Conduct.

Lower Environment Impact

By using recycled materials such as rPET and recycled nylon, and by optimizing our processes, we reduce water consumption and CO₂ emissions compared to conventional bags.

Digital Product Passport

Every product features a Virtual ID, giving you complete transparency and traceability. The Aware™ blockchain platform makes trusted impact data public—simply scan the QR code to access verified information, powered by Aware tracers and blockchain technology.
